We use the term 'register' to refer to particular varieties or styles of speaking and writing. Registers vary because the language is used for different purposes, in different contexts and for different audiences. For example, there is a legal register, a register of advertising, registers of banking and a register of weather forecasting.

### **Register - English Grammar Today - Cambridge Dictionary**

'Written language is often a special register, distinct from most styles of speech, and the information conveyed by writing and by speech is not identical.' 'For such people, standard English is the register of formal communication, complemented by vernacular usage for other purposes.'

In sociolinguistics, a register is a variety of language used for a particular purpose or in a particular communicative situation. For example, when speaking officially or in a public setting, an English

speaker may be more likely to follow prescriptive norms for formal usage than in a casual setting; examples might include pronouncing words ending in -ing with a velar nasal instead of an ...
