Solutions and Mixtures Before we dive into solutions, let's separate solutions from other types of mixtures. Solutions are groups of molecules that are mixed and evenly distributed in a system. Scientists say that solutions are homogenous systems. Everything in a solution is evenly spread out and thoroughly mixed.

Definitive definition is - serving to provide a final solution or to end a situation. How to use definitive in a sentence. Did You Know? Synonym Discussion of definitive.

Definitive | Definition of Definitive by Merriam-Webster

- One of my favorite critical thinking and problem solving tools is a good problem statement. You should never just take a problem and rush off in a general direction, thinking you're going to come up with a solution that will satisfy the needs of your requester. Remember, the shortest distance between two points requires you to know where are you starting and where do you want to go?
