Need some help flushing coolant/radiator (self.motorcycles) submitted 1 year ago \* by fastmatt30 03 R6/18 Grom So I've found a few videos that fit my bike year showing how to flush a radiator, using distilled water warming up the engine etc but still need some opinions/help

### **Need some help flushing coolant/radiator : motorcycles**

Assuming that a coolant test strip says the coolant is bad, using a radiator flush type of product can be a good practice when draining an unknown type of coolant. If you know what kind of coolant is in it and it's the correct type then you can get away with a simple drain, refill and bleed of the system, back flushing with water is a good ...
