When County tractors first went into production in 1948, the first machines to be built were track laying. It wasn't until 1961 that the manufacture of the equal wheeled 4WD units started.

County Tractors | Vintage Tractor Engineer

Don Knasel started converting garden tractors into mini-8N Fords as a way to help older tractor collectors get around tractor shows. Now he sells kits for conversion. "I saw so many old guys who were having trouble getting around, but were too bullheaded to use a mobility unit," recalls Knasel. A Ford N-Series collec...

Kit Turns Garden Tractor Into Mini-8N - FARM SHOW - Home

David Brown Tractors began in 1936 when Harry Ferguson and David Brown entered a partnership to make a small agricultural tractor powered by a Coventry Climax engine at the famous David Brown Park Gear Works in Huddersfield. Very soon David Brown had introduced his own engine and had secretly begun plans to market his own tractor; the writing was soon on the wall for the partnership with Ferguson.

David Brown Tractors | 1936 - 1988

A tractor is an engineering vehicle specifically designed to deliver a high tractive effort (or torque) at slow speeds, for the purposes of hauling a trailer or machinery used in agriculture or construction. Most commonly, the term is used to describe a farm vehicle that provides the power and traction to mechanize agricultural tasks, especially (and originally) tillage, but nowadays a great ...

The Ford GPA 'Seep' (Government 'P' Amphibious, where 'P' stood for its 80-inch wheelbase) was an amphibious version of the WWII Ford GPW Jeep. Unlike the jeep, the seep was not a successful

design; it was considered too slow and heavy on land, and lacked sufficient seagoing abilities in open water. The design features of the much larger and more successful DUKW amphibious truck were used on ...
