Enterprise Agility At Startup Speed | Jira Align

Jira Workflows power effective teamwork. Plan, track, and release great software with workflows designed to fit every initiative or project. Start with a template, or create a custom one and get your team working more efficiently and transparently.

Jira Workflows - Power Effective Teamwork | Atlassian

This video shows you how you can create one agile board to display issues from multiple projects. An example where this would be relevant is if there are multiple teams working on different projects and the project owner wishes to visualize all development work and active sprints on one single board (eg: product owner can look at sprints for both backend and frontend teams on the same board)
