Learning About Bees From Mr

Randy Oliver "U.S. beekeepers crossed the Rubicon of pesticide application when Varroa mites were introduced in the late 1980s. They literally "tore down the fence," as one wag put it, quickly transforming themselves from anti-pesticide fundamentalists into willing pesticide applicators."—Dr. Malcolm Sanford (2008). Those of us who remember the arrival of varroa, and the devastation

For the second year in a row, I'm overwintering my bees in single-deep hives. After years of running double deeps, and three years with triple deeps, I went to singles beginning about sixteen months ago. My decision was prompted by Thomas Seeley's discussions of single deeps and the fact that very large colonies seem to have disproportionately high mite loads.
