The NSW Education Standards Authority (previously NSW Board of Studies) has finalized the new HSC syllabus for chemistry and physics, along with many other subjects. The new content and assessment criteria will be first taught to Year 11s in 2018 who will then sit the first HSC under this new syllabus in 2019. This is the first major syllabus change since 2001.

The Higher School Certificate (HSC) is the credential awarded to secondary school students who successfully complete senior high school level studies (Years 11 and 12 or equivalent) in New South Wales, Australia. It was first introduced in 1967, with the last major revision coming into effect in 2001. It is currently developed and managed by the NSW Education Standards Authority (NESA).
