This episode was incredibly infuriating to listen to. The majority of this was 100% pseudoscience gut feeling bullshit. I used to work as a valet at a Ritz Carlton, and you would be AMAZED by the number of people who drive around with floor mats completely covering BOTH the brake and their accelerator.

this brings us to the end of another year of holiday fills! and it also brings us to the end of my doing this for t100, I'm pretty sure. there is always the chance that s6 will suck me back in and I will eat my MS Paint santa hat, but right now, the chances seem slim

Like most other characters in this story, the G4s man remains nameless, including the main player, the mother. Still the true hero of the story is the one year old who grows up to age 8, even after having been placed in a cooking pot as an infant and surviving the horrors of the Congo forest for endless nights of savagery.

Oh, Crap! — literally. With all the monsters, world destroying psychopaths, and clowns out there, the world can be a pretty frightening place. Encounters with these things can weaken not only the resolve of the strongest of men and women, but their bladders and sphincters as well.. This is when somebody's response to a scare is to piss or crap their pants, though this may not always be shown.

I am incredibly proud of the thirty-four vintages (1984-2017) of Cigare Volant that we have produced; each one is a bit different from the other, but each, with the very occasional exception, somehow captures a sense of “Cigareness,” a quality I am at a loss to define with any precision, apart to say that a certain threshold level of succulent savoriness has been achieved; it becomes a ...

just a feeling. History shows us that this feeling of superiority is what most people want. This has worked for religions for 10,000 years. Sort everyone into US vs THEM and then explain that the USes are better than the THEMs.

Seeming is the gift that keeps giving. First flying cows, then lots of de Rolos, then nesting doll sexy sextuplets. Vax never washes his armor, so apparently it's smelly. I was reading an interesting profile of the Rwandan president Paul Kagame in the Sunday New York Times yesterday, “The Conscience of a Strongman,” which paints a picture of a man who seems to have very little conscience at all, really.
