Parents Et Adolescents

SOCIAL MEDIA USE BY TWEENS AND TEENS. Engaging in various forms of social media is a routine activity that research has shown to benefit children and adolescents by enhancing communication, social connection, and even technical skills. 1 Social media sites such as Facebook and MySpace offer multiple daily opportunities for connecting with friends, classmates, and people with shared interests.

The Impact of Social Media on Children, Adolescents, and ...

The present study investigated the relationship between perceived parenting styles, depersonalisation, anxiety and coping behaviour in a normal high school student sample (N=276). It was found that perceived parental psychological pressure correlated positively with depersonalisation and trait anxiety among the adolescents.
