Shuffle Offense

A motion offense is a category of offensive scheme used in basketball. Motion offenses use player movement, often as a strategy to exploit the quickness of the offensive team or to neutralize a size advantage of the defense.

Motion offense - Wikipedia

To learn about basketball offense, the first thing you should read is this introduction to offenses and theory behind building a great offense. You will learn: The different types of offenses. How to choose an offense.

Basketball Offenses, Motion Offense, Plays, and Tips

The triangle offense is an offensive strategy used in basketball. Its basic ideas were initially established by Hall of Fame coach Sam Barry at the University of Southern California. His system was further developed by former Houston Rockets and Kansas State University basketball head coach Tex Winter, who played for Barry in the late 1940s. Winter later served as assistant coach for the Chicago ...

Triangle offense - Wikipedia

These are just examples and are my terminology and I use it so you might better understand the offensive examples in this section. In other sections we will discuss the specifics of each but in this offensive section they are intended to help with the overall big picture of constructing an offense.

Breakthrough Basketball Offense - Offensive Theory

Pass to the Corner: This option starts with the small forward (3) passing to point guard (1) in the corner, and then making a "shuffle cut" off the post man. The point guard (1) will pass it back to the small forward (3) if he is open.

The personal story of the rise and development of the Air Raid offense, the story of the men who developed and mastered it — its originators, Hal Mumme and Mike Leach, as well as coaches like Tony Franklin and Dana Holgorsen — has been told many times and told very well. The offense itself, however — its raw structure, plays, and formations — nevertheless deserves deeper study given its ...
