Supply Chain Management In Construction

The International Journal of Construction Supply Chain Management (ISSN 1179-0776) invites submissions for consideration in its issues. IJCSCM is an online, open access (free submission and free access) and peer-reviewed journal for the publication of research and innovation in construction management and its supply chain. In line with international practice, articles published in this journal ...

International Journal of Construction Supply Chain Management

A typical supply chain begins with the ecological, biological, and political regulation of natural resources, followed by the human extraction of raw material, and includes several production links (e.g., component construction, assembly, and merging) before moving on to several layers of storage facilities of ever-decreasing size and increasingly remote geographical locations, and finally ...
