The banjo is a four-, five-, or six-stringed instrument with a thin membrane stretched over a frame or cavity as a resonator, called the head, which is typically circular. The membrane is typically made of plastic, although animal skin is still occasionally used. Early forms of the instrument were fashioned by Africans in the United States, adapted from African instruments of similar design.

Clawhammer, sometimes called frailing, is a distinctive banjo playing style and a common component of American old-time music.. The principal difference between clawhammer style and other styles is the picking direction. Traditional picking styles (classic banjo), including those for folk, bluegrass, and classical guitar, consist of an up-picking motion by the fingers and a down-picking motion ...
